IN THE CLAIMS:

Please amend claim 1 as follows:

1. (Amended) A fluid control apparatus [characterized in that the apparatus comprises] ~~comprising~~ a plurality of fluid controllers, and a plurality of on-off devices arranged respectively at an inlet side and an outlet side of each of the fluid controllers, each of the on-off devices comprising one valve or a plurality of valves, with the adjacent valves connected to each other without using tubing,

each of the on-off devices being ~~of the type selected from the group~~ [one of five kinds] including a 2-type on-off device having a two-port valve, a 2-3-type on-off device having a two-port valve and a three-port valve, a 2-3-3-type on-off device having a two-port valve and two three-port valves, a 3-3-type on-off device having two three-port valves, and a 3-3-3-type on-off device having three three-port valves,

main bodies of two-port valves of all types of on-off devices being identical in configuration and each having an inlet and an outlet in a bottom face thereof, and main bodies of three-port valves of all types of on-off devices being identical in configuration and each formed
